

Jamal Masarwa - Artist Profile

Jamal Masarwa (born 1986) is a Palestinian Contemporary Digital Artist, based in Dubai and London.

Jamal's work is well known through his expression of freedom; contemporary and surreal art that incorporates Arabic calligraphy and inspirational figures from the Middle Eastern and Western worlds.

He majored in the study of animation and digital arts in the year 2004, but his love and passion for his identity and language pushed him in a different direction; digital calligraphy art using the Arabic language.

His career began in 2012, which was the year he launched his first art exhibition titled "Mask".

After the success of his first exhibition in Palestine, Jamal focused on delivering his message to the rest of the world.

Since the beginning of his career, today his artworks are present in more than 20 countries around the world.

Throughout the years he has collaborated with several iconic brands, celebrity personalities and magazines in the Middle East and around the world.

In every artwork there is a message of freedom.

A message that is very clear in his designs and true to his identity as a Palestinian.
